Dear Bryan,

RE: Neighbourhood Safer Place – Kilmore Trackside Building

Two years ago the Kilmore Racing Club Inc (KRC) gave consent for a Neighbourhood Safer Place (NSP) to be designated within the Recreation Reserve. The agreement comprised of the Trackside building, the asphalt car park to the north of Trackside and the land to the west of the race course.

Kilmore Racing Club (KRC) believe that the use of the Trackside building during extreme fire days will potentially put KRC employees at risk as a result of the requirement to service the building. On these days the obligation of the staff is to their family and to ensure they remain safe.

As such KRC withdraws consent for the Trackside building to be used as a NSP, leaving the asphalt car park and grassed car park land to remain on the NSP register.

Regards

Ben Murphy

Dear Bryan,

RE: Potential NSP – Kilmore Recreation Reserve

With consent withdrawn for the Trackside Building to be used as an NSP, Kilmore Racing Club (KRC) would like to consider an alternative option.

We believe after discussion with the CFA that "J Kelly Pavilion" could be suitable. We appreciate and understand that this would need to be audited by the CFA to verify its ability to be included but would provide a safe area without the requirement of been serviced by Kilmore Race Club staff.

Regards

Ben Murphy
