

Shadow art challenge

You will need:

- > A torch
- > Things around the house you can use to create – like paper, glue, Lego, string or anything you like

Once you have created your shadow art, send it in for the chance to win a prize. Details on how to enter on the next page.

What is shadow art?

You've made things out of Lego, paper and glue before, but have you ever thought of the shadow your creation makes?

Use a torch and any of the materials you have in your house; paper, glue, Lego, string, or anything else you can think of and make something out of the shadows.

Use your creativity and imagination to create anything you like and build it in a way that you can shine a light on it and create something awesome.

This challenge is a fun way to test your building skills and how to use perspective and engineering.

We would love to see your creations and even have a few prizes up for grabs. To enter, take photos of your shadow art and the building you used to make the shadow and send them to libraries@mitchellshire.vic.gov.au. Please make sure to include your name and age in the body of the email and type 'Lego shadow' in the subject field of your email.
